

WE ARE HIRING!

What we need and where: We are looking for an enthusiastic and motivated engineer to join the G&W team. You will have high standards, a thirst to improve and develop and an eagerness to learn and excel in your field. You will hold a BSc (Hons) in geology, civil engineering, soil mechanics, environmental sciences or similar. You will have demonstrable interpretative reporting skills, a strong work ethic and enjoy a challenge. You will be organised and able to prioritise effectively, managing your own case load of projects as well as mentoring new graduates, you will help to shape the face of G&W. Accuracy and attention to detail are vital skills for this role, as is a polite and professional manner. Continuously promoting our company to achieve its vision of becoming the leading provider of contaminated land and geotechnical services by championing our brand and company values.

What you will be responsible for:

- Project management, organisation of intrusive investigations and subcontractors
- Communicating effectively with clients and key stakeholders
- Preparation of Phase 1 Desk Studies and Flood Risk Assessments
- Scheduling of samples for laboratory testing
- Phase 2 intrusive ground investigations and data analysis
- Phase 2 interpretative reports including contamination risk assessments, geotechnical and basement impact assessments
- Phase 3 remediation strategies
- Carry out qualitative and quantitative risk assessments
- Continually suggesting and implementing improvements to current procedures
- Ad-hoc duties to support and assist the wider G&W team

What you will get in return:

- A salary between £23 and £28K dependent on experience and expertise
- Autonomy to choreograph your role and deliver results
- Hybrid working
- Working from home contribution
- 23 days holiday + bank holidays – rising to 25 after 3 years
- Birthday day off
- Free parking
- Subsidised professional subscriptions
- Paycare health cash plan
- Physical fitness contribution
- Everymind at Work mental healthcare support
- Employee voice and participation
- Casual dress
- Company social events
- To be part of a growing and exciting team that favours collaborative working and professional development in a supportive, nurturing, and exciting environment
